

Riverdale : we know more about the musical episode of season 3

As previously announced, the season 3 of "Riverdale" will contain a new musical episode that will be released on march 20 in the United States. And we now know what the musical will be at the center of this episode event. Jack Rowand/The CW announcement was made this summer during the Comic Con San Diego : after the musical episode of season 2 focused on the representation of a musical Carrie at the high school, season 3, of Riverdale, will be entitled to a new musical episode. And after months of suspense, the chain The CW, which broadcasts the series in the United States, and the showrunner Roberto Aguirre-Sacasa has just revealed that this episode event would be the sixteenth of the season 3, which will be released march 20 and will be available on march 21st in France on Netflix, and that the teens of Riverdale will be interested this time in the musical, Heathers : The Musical, mounted for the first time in Los Angeles in 2010 (and then played Off-Broadway and London), and adapted from the cult film from 1989 Heathers with Winona Ryder, Christian Slater, and Shannen Doherty. "Last year, we had a blast with Carrie," said Roberto Aguirre-Sacasa in a press release. "This year, we wanted to pay homage to another film ado worship. Heathers : The Musical is extra fun, with roles super for the teens of Riverdale. And all the world will sing...". Should we see the announcement that even Cole Sprouse pushes the song this time ? It is hoped in any case. And if the song list has not been unveiled, we already know what role each of the characters take place in the room. It is, therefore, to Josie, and Sweet Pea, will have the honor of embodying Veronica Sawyer and J. D., the character played by Ryder and Slater in the film, while Cheryl, Betty, and Veronica are the three Heather of the story. But this is not all. Archie (K. J. Apa) is also included on the list of participants, so fans worried after the cliffhanger of this week can be relieved. It's true.
